DESCRIZIONE

** Questo corso è stato ritirato il 30 giugno 2026

This course is designed to build your in Dynamics 365 Supply Chain Management application knowledge. This course will cover the most important features and functionalities needed by Dynamics 365 Supply Chain Management functional consultant including: The product information and how to configure, create, and manage your product and inventory. Supply chain management configuration and processing. The transportation management features, and the warehouse management features. Asset Management functionalities. Master planning configuration and processing. Sales and procurement processes. This course includes lectures and several hands-on exercises. The exercises will be introduced to you in the form of a case study presented to a Dynamics 365 Supply Chain Management Functional Consultant, Expert. Each exercise will be based on a business scenario followed by a question or discussion then a step-by-step guidance to perform the system related steps

TARGET

This course is designed for the Dynamics 365 Supply Chain Management Functional Consultant Expert. The Dynamics 365 Supply Chain Management Functional Consultant Expert is a key resource that implements and configures advanced features of Dynamics 365 Supply Chain Management to meet the requirements of a business. The functional consultant analyzes business requirements, translates those requirements into fully realized business processes and solutions, and applies industry-recommended practices to implementations. The functional consultant has a strong advanced knowledge of supply chain management operations including production, master planning, and asset management and demonstrates expertise in one or more of the following manufacturing methods: discrete, process, and lean. They partner with architects, developers, consultants and other stakeholders to implement solutions that meet or exceed the needs of their customers. The consultant identifies use cases for applying Dynamics 365 Supply Chain Management add-ins for mixed reality, internet of things (IoT), and machine learning (ML) technologies. The functional consultant specializes in one or more of the following feature sets of Dynamics: finance, manufacturing, or supply chain management. They partner with architects, developers, administrators, and other stakeholders

to deliver solutions that meet or exceed the needs of their customers.

CONTENUTI

- Configure and manage products and inventory in Dynamics 365 Supply Chain Management
- Configure and use discrete manufacturing in Dynamics 365 Supply Chain Management
- Configure and use process manufacturing in Dynamics 365 Supply Chain Management
- Set up engineering change management for Dynamics 365 Supply Chain Management
- Manage product version information in Dynamics 365 Supply Chain Management
- Use warehouse management in manufacturing in Dynamics 365 Supply Chain Management
- Configure Asset Management for Dynamics 365 Supply Chain Management
- Work with Asset Management for Dynamics 365 Supply Chain Management
- Configure and manage procurement and vendors in Dynamics 365 Supply Chain Management
- Configure and use lean manufacturing in Dynamics 365 Supply Chain Management
- Master planning in Dynamics 365 Supply Chain Management
