

Accelerate sales pipelines with AI in Dynamics 365

CODICE	AB-210T00
DURATA	3 gg
PREZZO	1.390,00 €
EXAM	

DESCRIZIONE

This course is designed for professionals who want to learn how to build AI-enhanced sales solutions using Dynamics 365 Sales, Microsoft Copilot, and AI agents. It is ideal for students who want to understand how modern sales teams use AI to manage leads, opportunities, forecasting, and seller productivity. Learners may have a general understanding of sales processes or Dynamics 365 but are looking to develop the skills needed to translate business requirements into practical, AI-powered sales workflows while following governance and responsible AI practices.

***This course will be available on 26/6/2026.*
